DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the submitted drawings are unofficial. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "44" for the lens just above the hinged door 30 and beneath the reflector 28 should be shown in the Fig. 3A and Fig. 3B. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 5, 6, 12 and 13 are objected to because of the following informalities:
“the ratio” should be changed to –a ratio--. Appropriate correction is required.

Allowable Subject Matter

4. Claims 1-18 are allowed.

The following is an examiner’s statement of reasons for allowance:

Claims 1, 11, 15 and 17, a lighting system for illuminating artwork comprises, in combination, a reflector with a dichroic coating and a linear spread lens with an etched first portion and a lighter etched second portion both on a first surface.

Claims 2-11 are dependent on claim 1.

Claims 12-14 are dependent on claim 11.

Claim 16 is dependent on claim 15.

Claim 18 is dependent on claim 17.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Sharma [US 5,727,868] discloses an illumination device for a framed picture; but Sharma does not disclose the dichroic coating on the reflector and the linear spread lens with two different etched portions.

Blaisdell et al. [US 4,482,942] discloses a reflector with a dichroic coating.

M.A. Erickson [US 1,466,358], Huisingh et al. [US 5,115,380], and Segaud et al. [US 5,161,885] disclose a linear spread lens with two different etched portions on the same surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. This application is in condition for allowance except for the following formal matters:

The Drawings and Claim Objections set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
